

How to add another form to the project?

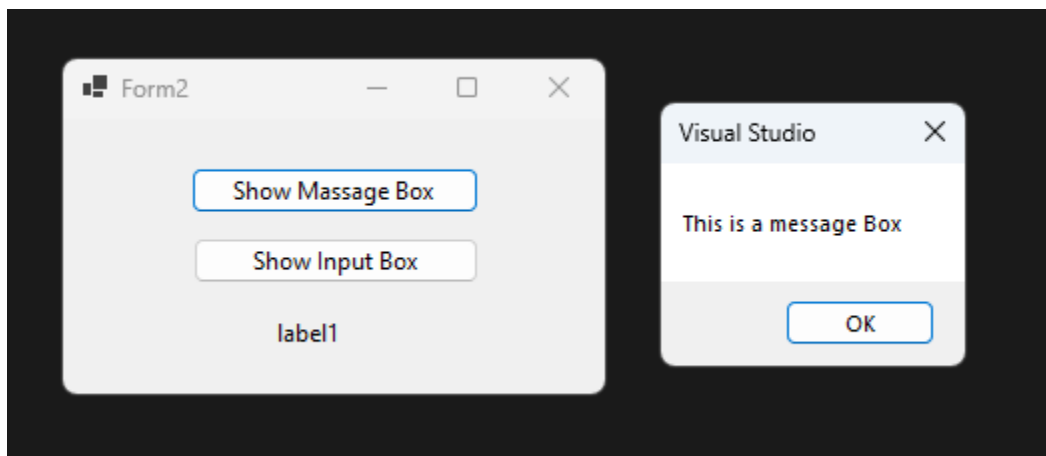

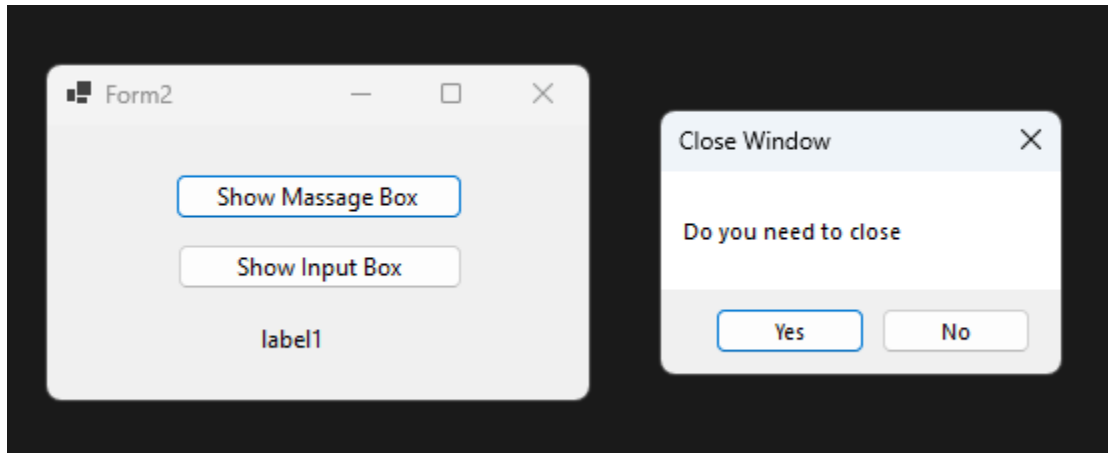

Display Output in a Message Box in C#

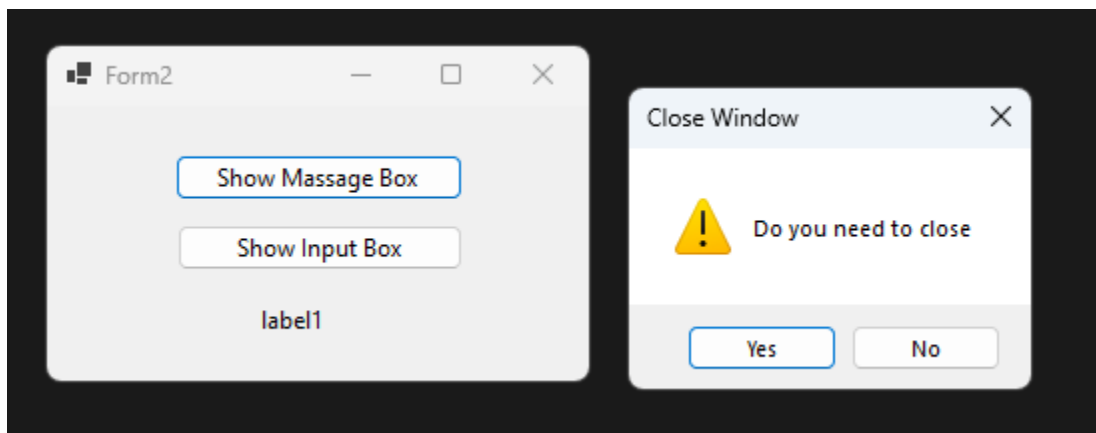

```
private void button1_Click(object sender, EventArgs e)
{
    MessageBox.Show("This is a message Box");
}
```

```
private void button1_Click(object sender, EventArgs e)
{
    MessageBox.Show("This is a message Box", "Visual Studio");
}
```

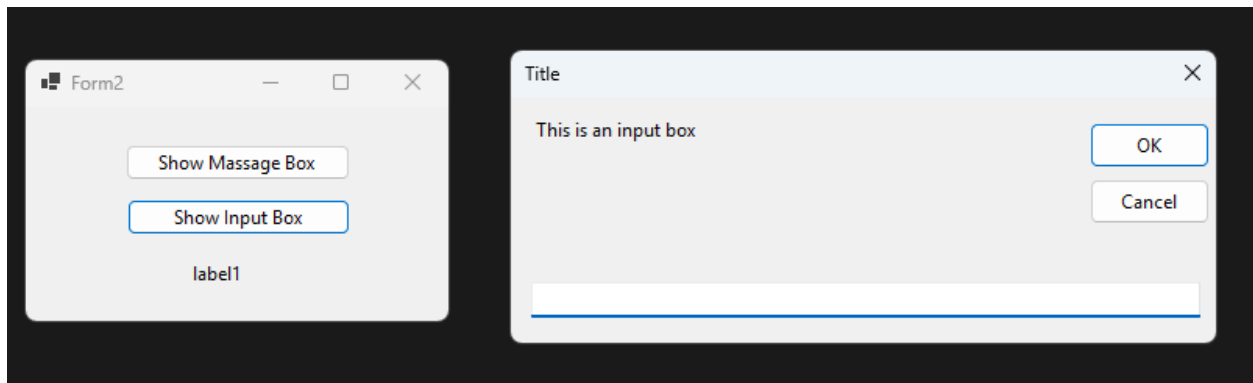

```
private void button1_Click(object sender, EventArgs e)
{
    String message = "Do you need to close";
    String title = "Close Window";
    DialogResult result = MessageBox.Show(message, title,
    MessageBoxButtons.YesNo);
    if (result == DialogResult.Yes)
    {
        this.Close();
    }
}
```

```
private void button1_Click(object sender, EventArgs e)
{
    String message = "Do you need to close";
    String title = "Close Window";
    DialogResult result = MessageBox.Show(message, title,
    MessageBoxButtons.YesNo, MessageBoxIcon.Warning);
    if (result == DialogResult.Yes)
    {
        this.Close();
    }
}
```

Get Input Using an Input Box in C#

```
private void button2_Click(object sender, EventArgs e)
{
    string input1;
    input1 = Interaction.InputBox("This is an input box", "Title");
    label1.Text = input1;
}
```
